### EXPERIENCE

**Cleeng** — Node.js Engineer Intern 10.2025 – Present

- Developing integrations with payment and subscription services using Node.js and TypeScript.
- Working within a microservices architecture built on AWS (Lambda, SQS, EventBridge).
- Owning the development and maintenance of the Mailchimp integration connector.
- Collaborating with the team through code reviews, testing, and deploying new features.
- Leveraging modern AI workflows in daily development — OpenSpec, Claude Code.

**Heineken HGSS** — IT Intern 05.2025 – 10.2025

- Configuring and integrating monitoring tools (New Relic) within the Observability team.
- Contributing to automated testing processes using the Tosca framework.
- Building observability practices — analyzing metrics, alerts, and logs in production environments.

**Repulse** — Junior Web Developer 01.2024 – 09.2024

- Built and maintained over 40 websites and e-commerce stores powered by WordPress.
- Developed custom functionality using PHP and JavaScript.
- Deployed sites to production servers with a focus on performance and SEO optimization.
- Collaborated in a cross-functional team (developers, designers, copywriters).

---
